

RONIT PARMAR

Frontend Developer Intern | HTML5 | CSS3 | JavaScript (ES6+) | React.js

Ahmedabad, Gujarat, India | ronitparmar.work@gmail.com | +91 9265778781 | [GitHub](#) | [LinkedIn](#) | [MetroMind Live](#)

PROFESSIONAL SUMMARY

3rd-year B.Tech Information Technology student (CGPA 8.24) with hands-on experience building responsive, component-based user interfaces using HTML5, CSS3, and JavaScript (ES6+), extended with React.js for dynamic frontend development. Comfortable across the stack with Node.js/Express and REST APIs for backend integration. Combines full-stack coursework with 3+ years of freelance client delivery, bringing ownership, communication, and deadline discipline. Seeking a Frontend/Web Development Internship to contribute clean, well-structured, cross-browser-compatible code on live projects.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), DOM Manipulation, Responsive Web Design, React.js, Vite, Component-Based UI

Backend: Node.js, Express.js, REST APIs, Django REST Framework, Flask

Databases: MySQL, MongoDB, Schema Design, CRUD

Languages: JavaScript, Python, Java, SQL

Tools & Practices: Git, GitHub, Vercel, Debugging, Cross-Browser Testing, 3-Tier Architecture

Data / ML (Familiarity): Pandas, NumPy, scikit-learn

TECHNICAL PROJECTS

MetroMind — Intelligent Metro Ticketing Platform — *Live App*

- Built the frontend with React.js and JavaScript (ES6+), implementing responsive, component-based UI for a live metro booking platform used end-to-end by test users.
- Diagnosed and fixed frontend rendering and state-management issues to ensure consistent behavior across views.
- Integrated REST APIs from a dual-backend architecture (Node.js/Express + Django REST) into the frontend, applying 3-tier separation between presentation, business logic, and data layers.
- Deployed the live application on Vercel using Git/GitHub-based version control workflows.

MetroFlow — Metro Ticket Booking System

- Built the complete frontend using HTML, CSS, and JavaScript, paired with a Flask backend and MySQL database.
- Implemented UI flows for user authentication, digital wallet, QR ticket generation, monthly passes, and an admin analytics dashboard.

DigiKhata — Digital Business Ledger

- Built a Python-based digital ledger application for SMEs with a clean, usable interface for credit/debit tracking and inventory management.
- Implemented automated payment reminders, email alerts, and transaction reporting.

EXPERIENCE

Freelance Video Editor — *Self-employed, Remote* | 3+ Years

- Managed client projects end-to-end — translating requirements into deliverables, handling revisions, and meeting deadlines independently.
- Built client-facing communication, ownership, and time-management habits transferable to sprint-based development work.

ACHIEVEMENTS & CERTIFICATIONS

- 2nd Runner-Up, Prompt Craft – Lakshya 2.0 TechFest, L.D. College of Engineering | Apr 2026
- Presented research at ICRAET 2026 on “Swarm Intelligence and Multi-Agent AI Systems for Autonomous Drone Coordination in Aerospace Applications”
- Introduction to HTML, CSS, & JavaScript – IBM | Dec 2025
- Advanced Relational Database and SQL – Coursera | Jun 2026
- Exploratory Data Analysis for Machine Learning – IBM (Coursera) | May 2026
- Generative AI: Introduction and Applications – IBM | Jun 2026
- Inheritance and Data Structures in Java – University of Pennsylvania (Coursera) | Aug 2025

EDUCATION

B.Tech, Information Technology Engineering — CGPA: 8.24

Currently in 3rd Year

LJ Institute of Engineering and Technology (LJIET) / LJ University, Ahmedabad

Relevant Coursework: Full Stack Development, DBMS, Python & Data Science, Theory of Computation

XII (GSEB) — 67%

Sheth Shree H.H. Patel High School
